MAIN POINT

Just DON'T
Question Evolution!!

the cell requires over
1,000 processes to stay
alive - if one is gone -
life - all 1,000 +
must evolve at our
time = 1000's

Sorry, but the Cambrian
Explosion basically kills the
theory. Not to mention the
fossil record, or the lack
of feasibility of practical
evolution even in single-cell
organisms. The so-called
"evidence" against the classic
theory producing any complex
organisms are trillions to one.

Darwin's evolutionary
theory is the only the-
ory backed with sound
scientific data. Evolution
can be seen on micro-
and macro level.
